

Display of Overalls in Widgets

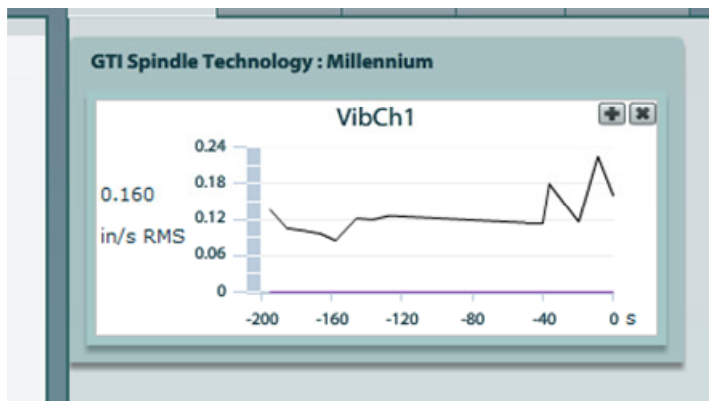

Current design, the Overall is Fixed and shows the default

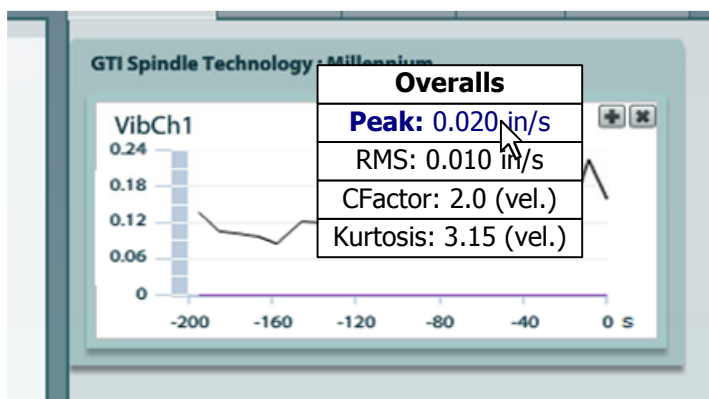

Proposed design: onMouseOver a table shows up and displays all available overalls for this data set

OnClick a new Overall type can be Selected for this widget only and for this session only

Current design, the Overall is Fixed and shows the default

Proposed design: Reposition labels in the widget and make the graph wider. Display the overall in the same format and with the same functionality as for the graph widget
